Dear Barrington Park District Patrons,

As we head into the Fall season at the Park District we want to take a minute to remind everyone of the COVID-19 Virus specific rules we have implemented to help keep our patrons and staff safe while at the Park District.

- All participants over the age of 2 entering any Park District facility must be wearing a face covering.
- All participants not in the same household must maintain 6 feet of distance while inside the facilities.
- If you have received a COVID-19 test and are awaiting test results due to exposure or symptoms do not visit a park district park or facility.
- If you have been to a park district park or facility and have tested positive within 14 days of that visit notify the Park District Director or a Superintendent.
- Patrons should remain at home and not visit a park district park or facility if they are exhibiting any of the following COVID-19 symptoms:
  - Fever over 100.4 degrees
  - Coughing
  - Sore throat
  - Difficulty breathing or shortness of breath
  - Muscle aches
  - New loss of taste or smell
  - Chills
  - Runny nose
  - Diarrhea
  - Nausea or vomiting
  - Unusual headache
  - A member of your household is displaying COVID-19 symptoms or has been in close contact with someone who has tested positive for COVID-19

What other practices are in place to keep you safe this fall?

- Youth indoor programs where parents do not attend with their child will have curbside drop-off and pick-up. Parents/guardians will be asked to certify for their participant or household member that they are not exhibiting any of the above COVID-19 symptoms. If the parent attends the class with their child both parent and child will be asked to verify they are symptom free. Outdoor programs will be asked to verify with their instructor at the class location.
- Hand sanitizer stations for patrons throughout the facility
- Traffic flow patterns updated
- Programs are separated throughout the facility to ensure distance between activities
- Assigned restroom facilities: program specific
- Allowing one family to be in the elevator at a given time
- Congregating areas have been removed from the hallways and lobbies
- Plexiglass barriers installed at the front desk and fitness desks
- Fitness equipment has been spaced out to assist with social distancing
- Common areas and equipment throughout the buildings are being cleaned between usages
- Touchless water bottle fillers have been installed at both the Fitness & Recreation Center as well as the Langendorf Aquatic Center
- Smaller class sizes have been instituted
- Many classes are being offered outdoors to allow for greater social distancing and fresh air

Thank you for helping us keep each of our patrons and staff members safe!

Sincerely,

~ The Barrington Park District
